

Curriculum Vitae

Romarno Basson

Summary of me:

Final-year BSc Information Technology student at North-West University

I Have hands-on experience in Linux systems, infrastructure monitoring and workflow automation.

I built and deployed an automated Raspberry Pi monitoring solution using Prometheus, Grafana, Blackbox Exporter and n8n. Interested in Linux, DevOps, infrastructure, automation and systems engineering roles.

ADDRESS AND CONTACT DETAILS

Home Address: Kampus Studio
Potchefstroom
North West

Cell phone number: +27 717448927
WhatsApp number: +264 811501482

Personal Information

Full name: Romarno Basson

Date of Birth: 16 May 2004

Nationality: South African AND Namibian

Gender: Male

Languages: English (Fluent)

Afrikaans (Fluent)

Driver license: Code B

Education

Bachelor of Science in Information Technology

North-West University, Potchefstroom, South Africa

Final-year student | Expected completion: 2026

National Senior Certificate

Windhoek Afrikaans Private School, Namibia | 2022

Graduated with a 71% average.

Technical Skills

Languages: Python, C++, HTML, CSS, MATLAB

Operating Systems: Linux, Windows

Monitoring / Observability: Prometheus, Grafana, Blackbox Exporter

Automation: n8n

Tools: Git, GitHub, Visual Studio Code

Hardware: Raspberry Pi, Mac laptops, Windows laptops.

AI experience: Using Windows Teachable machine to recognise patterns.

Work Experience

Namibia Media Holdings / Network Innovation Hub Namibia / 2024–2025

- Developed an automated website and network-monitoring system.
- Used Prometheus and Grafana to collect and visualise real-time performance data.
- Integrated n8n and Google Drive to automate data storage, transfer and file management.
- Configured the system to launch automatically on a Raspberry Pi.

North-West University / Two-month contract

- Provided technical support to approximately 1,000 students and staff members.
- Assisted with email configuration, Windows installations, software faults and hardware troubleshooting.
- Developed communication, customer-service and problem-solving skills.

Letter of Recommendation:

31 January 2025

Letter of Reference: Romarno Basson

I Derick Briers, ID: 75030510567, from Network Innovation Hub Namibia, had the privilege of working with Romarno Basson during his study holidays in 2024 and early 2025.

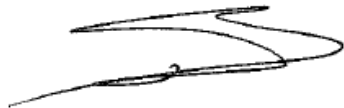

His technical expertise and problem-solving skills in IT are truly impressive. He independently built a complete website and network monitoring system that operates without requiring manual startup. His work included fully automated data scraping, visualization, storage, and cloud integration.

Using Prometheus, Grafana, and Blackbox Exporter, Romarno created real-time monitoring dashboards with insightful graphs. He leveraged InfluxDB to scrape and store data as CSV files, and integrated n8n to automate the process of reading these files, uploading them to Google Drive, and managing file deletion afterwards.

His ability to design and implement a complex yet fully automated system in such a short time period showcases his deep understanding of IT infrastructure, automation, and data management.

I highly recommend Romarno Basson for any role requiring innovation, efficiency, and technical excellence in IT.

Yours Faithfully

DERICK BRIERS
